retrains the plant A. Calhoun, of the Fourth recinct, (First ward,) was reduced to the ranks or violating the rules and regulations. on Pennsylvania avenue.
The bonds of F. A. Boswell and W. C. Harper as police magneticus without pay were approved by the Board.
The licenses of a number of persons in Georgatown to sell liquor were approved, and a large number were rejected for various causes.

A committee was appointed to prepare and report rules and regulations for sha government of the Board relative to liquor dealers' licenses.

Major Richards submitted to the Board a report of his examinations in the police systems in the Northern and Western cities, which he as follows:

DEPARTHERY OF MENDOCHIVAR POLICE,
ONSYLEMENT: Under leave of absence granted by you to visit cities having the Metropolitan police system, I left this city on the 16th ult., stopping first in the city of New York.

I was received there in the most cordial manner by James A. Kennedy, Eq., superintendent, and by Mr. Carpenter, chief inspector of their force. These gentlemen not only afforded me every feelilly in their power to inspect their police operations, but also devoted their time and personal attention, one or the other of them, during my stay in that city, to visiting all portions of their city with me where any pseullarity in the local operation of their force sristed. For these attentions and the valuable information obtained through these gentlemen. I munder many obligations.

Three conditions of their police operations imposed me particularly, vis: the length of time embraced in the tours of duty of their particular and comprehensive code of health ordinances, and the promptitude of their enforcement. Perhaps, also, I ought to mention the neak, tidy, and gantlemanly appearance of their policemen generally.

In reference to the first particular above mentioned, I am now thoroughly convinced, as I had before felt apprehensive, that the twelve-hour tours of duty of our man is entirely too long, and that it is gradually, if not rapidly, undermining the health of the members of the officers and as a consequence the efficiency of the organization. At a subsequent and

in their efforts it was after much annoyance and freequent insults in some instances. During my investigations in New York I also obtained many other ideas and suggestions which will be of much value to me in my official relation to the force, but which it is not now necessary to detail in this communication.

I also visited the cities of Albany and Buffalo, in the State of New York, each of which have adopted the metropolitan system. In each of these cities this system is just going into operation, and consequently I saw but little worthy of particular note other than was seen in the city of New York, from which city they have modelled their operations.

ork, from which city they have modelled their erations.
I also visited the cities of Cleveland, Columbus at Cincinnati, in the State of Ohio, each of which a adopted the metropolitan system. I found a ry excellent state of police management in each these silies, but saw nothing particularly sugsitive not embraced in the New York operations. I fact, all clice adopting this system take the eas of its working from that city. In conclusion, I would state that in all my insetigations I found no force superior to our own, from which I would wish in pattern, except in the particular mentioned with reference to the ew York force. I returned to this District and any duties on the 39th ultimo, having been about just two weeks.

to my duties on the 30th utime, having been and sent just two weeks.

Thanking the Board for the courtesy extended to me in granting me the privileges of this trip, and hoping that I may be able, through the expe-riences and observations derived therefrom, to ma-terially improve the character and standing of our

risences and observations derived therefrom, to materially improve the character and standing of our own force, I am, very respectfully.

A. C. Richards,
Major and Superintendent.

Dr. Nichols submitted the following resolution; which was adopted:

Resolved, That the Board has listened with much interest to the resoling of Major Richards report of his visit to New York and other Northern cities, and his examination of their police systems, which appears to have been intelligent and thorough, and hereby expresses its carnest sympathy with the major and superintendent in his view as the result of his observation of the New York policemen, that "the character and reputation of our force requires the more stringent" enforcement of its discipline, and its sincere determination to sustain him in his endeavor to raise the personnel of the establishment under our direction to the highest efficiency and excellence in every particular.

ROBBERY.—On Wednesday night, the grocery store of Wm. Ryan, on Third street wat, near Maryland around, in the Berenth ward, was entared by robbers, who carried off several boxes of cigars, a number of hams and middlings, several bottles of brandy cherries, a pack of cards, and some silver coin—in all valued at 260. Officers Yeatman and Kearney on Thursday received information which led them to suspect that Henry Johnson and Sarah Longaton, two colored persons who resided in the rear of Mr. Hyan's store, were the guilty parties. About 12 o'clock Thursday night the officer went to the house, made a search, and recovered a box of cigars, a ham, one bottle of brandy cherries, and the silver coin, which was identified by Mr. Ryan. The parties were arrested and had a hearing before Justice Handy, who committed them to jail for court.

Eckloff that she had just arrived from New York, having been sent for by her uncle, Thomas Moore, a carpenter, of this city, but he failed to meet her at the depot. The officers of the Fourth ward endeavored to find Mr. Moore, but were unable to do so. Mrs. Kelsber, who resides in 'he basement of the City Hall, took charge of the a 'iri until her uncle can be found.

The publishers, however, do not put this portrait of Mr. Lincola before the publis simply as a fine work of art, for it possesses the still greater value of being a true likeness of the Martyred President, representing him is his best aspects, and in a manner so different from all others that it may be considered essentially Mr. Marshall's own. The publishers believe it will be accepted as the standard portrait of Mr. Lincoln, and as grounds for that belief they juvite attention to the hearty commendations it has received from persons who knew Mr. Lincoln intimately, all expressing thorough suifaction with it in this regard.
